Geriatric Sessions

Geriatric Sessions will cover a variety of clinical as well as operational topics. For instance, there will be clinical sessions on Controlling Clostridium Difficile (C-Diff), Incontinence, Pain Management, Preventing Falls, Dementia, Delirium and managing Depression in patients with advanced illness. The more operational sessions will address: Geriatric Clinics, making hospitals safer for older patients, assisted living programs, advance care planning tools and medication reconciliation.

Palliative Care Sessions

Palliative Care Sessions will also cover a range of related topics including: Pediatric Palliative Care, Palliative Care in the ED, Inpatient, Home and Outpatient Settings, Hospice care, Ethical dilemmas in palliative care, Advance Care Planning tools and techniques, and working with highly complex patient-family situations.

Additional sessions will cover Transitions in Care, Reducing Hospital Readmissions, Quality Care in SNFs, Spirituality, Family Caregiver Support and much more.

More specifics to follow very soon -- stay tuned!

*Session dates and times subject to change.
